FEATURES-SPECIFICATIONS

Applications

If you have a Harsh and Hazardous location (corrosive, salt laden, flammable gas, vapors or explosive dust particles) this is where the Killark D2LC factory sealed panelboard will meet your needs. Our new panelboard is suitable for use from the oil sands of Texas to the rigs of Saudi Arabia to the grain storage locations in the Heartland. We have factory sealed this panelboard for ease of installation, all of the arcing, sparking and sliding contacts are contained in the cast aluminum enclosure (top enclosure), the stainless steel 316 industrial grade wiring chamber (bottom enclosure) has the line and load connections wired to terminal blocks. Even changing out the circuit breakers is easy with our internal chassis, we have all wires including 20% spare wires terminated. Connections to the wiring chamber, (14 gauge heavy 316 stainless steel) is suitable for either hubs or cable glands. Optional removable gland plates are available for the sides and bottom, for ease of field modification.

Features:

- All hardware is stainless steel, cover bolts are quick release Tri-Lead.
- Line and load connection are pre-wired for ease of installation.
- Standard wiring chamber is stainless steel, bottom entry.
- Both enclosures are set up as a standard feature for breather/drain fittings and base to cover static ground strap.
- All circuit breakers are pad lockable in the “ON” or “OFF” positions for up to three padlocks (to allow ease of lock out – tag out capabilities).
- Silver plated copper bus panelboard interiors are standard and the cover of the explosion proof enclosure is pre-drilled for future expansion or changing breakers in the field.
- External ground lug standard.
- Solid neutral (tin plated) standard for single and three phase.
- 50°C calibrated circuit breakers are available upon request, with a “V” suffix rating.

Standard Materials

- **Breaker enclosure:** Cast copper free aluminum (less than 4/10th of 1 %)
- **Cover Bolts:** Type 316 stainless steel quick turn (Tri-Lead), finish Aluminum Lacquer Paint.
- **Wiring enclosure:** 316L Stainless Steel 14 gauge.
